

Relax, we make exhibitions easy! . .

Our services allow your staff to fully concentrate on the forthcoming exhibition, rather than worrying about the logistics. We will take care of the exhibition set-up, breakdown, transport, logistics and storage or you can choose from any of our services. By working together we can ensure that all your specific exhibition requirements are met.

Exhibition & Events Set up, Breakdown, Transport & Storage

On arrival at the exhibition venue, we set-up your stand, load literature racks and deal with any event material that we are in possession of. Once set-up we simply hand over the set-up stand to a member of your event or exhibition team. For one day events we can remain on site and be available for any further assistance and help if required.

Exhibition & Events Breakdown

At the end of the exhibition, event or show we will breakdown the exhibition stand and then transport the equipment safely to a nominated address or our storage depot ready for your next exhibition.

Exhibition & Events Transport

We transport your exhibition stand and materials to your chosen exhibition. All your exhibition materials are fully insured whilst in transit.

Exhibition & Events Storage

Our storage/warehouse facilities provides safe, secure and fully insured storage for your exhibition stand, literature and materials. Our warehouses are conveniently located for onward transportation to any exhibition worldwide.
